④ Holster (battery) x 1

⑤ Lanyard x 1

⑥ Spare O-ring x 2

⑦ Type-C charging cable x 1

⑧ (Manual, warranty card, quality certificate) x 1

Product Operation

1. About Product

WUBEN T101 PRO is a multi-functional flashlight specially designed for searching and hunting. It utilizes 1× CREE XHP70.2 LED, and emits 3500 lumens max output. Powered by two high-drain 18650 batteries, with built-in charging design, it is very convenient to use.

2. Installation

Please remove the insulation plate before using.

3. Operation

- ON/OFF:** Tap on the tail switch to turn the light momentary on, click to turn it constant on, click again to turn it off.

- ② **Output selections:** When the light is on, single click on  switch to cycle through Eco–Low–Med–High–Turbo.
- ③ **Instant Turbo:** Press and hold  switch for 1s to activate instant Turbo, release to return to the previous status.
- ④ **Flash mode:** Double click on  switch to swap between Strobe and SOS, and single click to return to the previous status.

4. Charging

Plug the charging cable and click the tail switch until the indicator is red light constant on. When the indicator beneath the  switch is blue light constant on, it indicates charging finished, please click on the switch again and unplug the charging cable.

Note: Indicator is beneath the side switch, red light constant on indicates charging, blue light constant on indicates charging finished. If one of the batteries is full while the other is not, it will be blue light flashes. If abnormal charging, it will be blue light and red light flash alternately. Please use 5V/2A adapter, it takes about 4 hours to fully charge the flashlight.

 Make sure the batteries with protection circuit board.

 Make sure rubber cap covered well after charging finished to promise the IP68 waterproof level.

5. Battery status indication

Power 100%~31%	Blue light constant on (off after 5s)
Power 30%~15%	Red light constant on (off after 5s)
Power under 15%	Red light flashes
